■ Len Morgan in Elle Decor

This month's Elle Décor – the “Luxury Issue” – showcases the work of architect Len Morgan. His clients are collectors of all things fabulous.

A white MODULIGHTOR Wall Washer ([Model HBL WW03](#)) is seen on pages 186 /187. It is a ceiling mounted fixture with custom canopies for an atypical mounting condition.

We call it a Wall Washer because it's mounted from the ceiling but here it's being used as an 'Art Light' – the art being the books and shelves themselves.

This is a perfect example of how our Art Lights and Wall Washers are interchangeable ideas.
