■ Steven Harris & Rees Roberts

The front cover of February's Architectural Digest featured the stunning work of our friends Steven Harris and Rees Roberts, photographed by the always on-point Scott Frances. What a great team!

How happy we are to see a series of MODULIGHTOR wall washers peeking out of the corner of the images of this amazing penthouse. We are always so honored to have our fixtures included in such top-notch design projects.

Please read the fascinating article at Architectural Digest.
