■ Growing Up Modern

1st Dibs has a fantastic article from last month describing the experience Peggy Edersheim Kalb had growing up in a Paul Rudolph-designed apartment here in the city. I've met the senior Edersheims and was very impressed with their sophistication and decency. Really nice people.

Peggy's story is a great, short read and very interesting to imagine the perspective of a young person being immersed in such a special environment. THANK YOU, Peggy !
